DETAILED ACTION

Response to Amendment

The Amendment, filed on 05/10/2004, has been entered and acknowledged by the Examiner.

Cancellation of claims 4, 18 and 24 has been entered.

Election/Restrictions

Claim 1 is directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 15-17, 19, and 20, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 15-17, 19, and 20 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in Paper No. 7 is hereby withdrawn.

Allowable Subject Matter

Claims 1-3, 5-17, 19-23, and 25-53 are allowed

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of a light emitting device including a corrugation on a light

emitting layer that is in contact with the corrugation of a polymer layer formed over a transparent electrode.

Regarding claims 2, 3, 5-14, claims 2, 3, 5-14 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 15, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 15, and specifically comprising the limitation of a method of manufacturing a light emitting device including a corrugation on a light emitting layer that is in contact with the corrugation of a polymer layer formed over a transparent electrode.

Regarding claims 16, 17, 19, and 20, claims 16, 17, 19, and 20 are allowable for the reasons given in claim 15 because of their dependency status from claim 15.

Regarding claim 21, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 21, and specifically comprising the limitation of a light emitting device including a corrugation on a light emitting layer where the light emitting layer is formed from a polyfluorine derivative and where the pitch of the corrugation adheres to the equation $\Lambda = v\lambda_0 / n\sin\Theta_m$.

Where Λ is the pitch, Θ_m is the angle of reflection from the upper and lower surfaces of the layers of light emitting material of light propagation in a wave guide mode m in the light emitting material, λ_0 is the output wavelength, and n and v are integers.

Regarding claims 22, 23, 25-28 and 30, claims 22, 23, 25-28 and 30 are allowable for the reasons given in claim 21 because of their dependency status from claim 21.

Regarding claim 29, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 29, and specifically

comprising the limitation of a light emitting device including a corrugation on a light emitting layer where the light emitting layer is formed from a polyfluorine derivative and where the corrugation has the structure of a chirping grating.

Regarding claims 47-53, claims 47-53 are allowable for the reasons given in claim 29 because of their dependency status from claim 29.

Regarding claim 31, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 31, and specifically comprising the limitation of a light emitting device including a corrugation on a light emitting layer where the pitch of the corrugation adheres to the equation $\Lambda = v\lambda_0 / n\sin\Theta_m$.

Where Λ is the pitch, Θ_m is the angle of reflection from the upper and lower surfaces of the layers of light emitting material of light propagation in a wave guide mode m in the light emitting material, λ_0 is the output wavelength, and n and v are integers.

Regarding claims 32-39, claims 32-39 are allowable for the reasons given in claim 31 because of their dependency status from claim 31.

Regarding claim 42, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 42, and specifically comprising the limitation of a light emitting device including a corrugation on a light emitting layer where the corrugation has the structure of a chirping grating.

Regarding claims 43-46, claims 43-46 are allowable for the reasons given in claim 42 because of their dependency status from claim 42.
